

## Index to Volume 101

- Ahmed K, *see* Goueli SA  
 Ambudkar IS, *see* Horn VJ *et al.*
- Behr P, *see* Kupferberg A *et al.*
- Bronstein IB, Gromova II and Razin SV: Specific cleavage of chicken  $\alpha^A$ -globin and human c-Ha-ras genes by two molecular forms of calf thymus topoisomerase I 115
- Canela EI, *see* Cascante M *et al.*
- Cascante M, Torres NV, Franco R, Meléndez-Hevia E and Canela EI: Control analysis of transition times. *Extension of analysis and matrix method* 83
- Cremel G, *see* Kupferberg A *et al.*
- Das SK, *see* Ghosh S *et al.*
- Florindo J *see* Peinado J *et al.*
- Franco R, *see* Cascante M *et al.*
- García-Alfonso C *see* Peinado J *et al.*
- Ghosh S, Oten PW, Mukherjee S and Das SK: Study of properties of cholinephosphotransferase from fetal guinea pig lung mitochondria and microsomes 157
- Godin DV, *see* Ko KM
- Goodman MB, *see* Horn VJ *et al.*
- Goueli SA and Ahmed K: Nature of the intrinsic protein kinases involved in phosphorylation of non-histone protein in intact prostatic nuclei: further identification of androgen-sensitive protein kinase reactions 145
- Gromova II, *see* Bronstein IB *et al.*
- Hatch GM, *see* Nijjar MS
- Horn VJ, Sheehy PA, Goodman MB and Ambudkar IS: Activation of the inositol trisphosphate second messenger system by cAMP in a mouse fibroblast cell line 43
- Jaspers SR and Miller TB, Jr.: Purification and the immunological characterization of rat protein phosphatase 2A: enzyme levels in diabetic liver and heart 167
- Katai H, Terato K and Raghov R: Generation of monoclonal antibodies to the zinc finger domain of the eukaryotic transcription factor Sp1 73
- Kerc E, *see* Pato MD
- Kirven MJ and Wolf G: Synthesis and glycosylation of fibronectin in hepatocytes from vitamin A-deficient rats 101
- Knosp O, Talasz H and Puschendorf B: Histone acetylation and histone synthesis in mouse fibroblasts during quiescence and restimulation into S-phase 51
- Ko KM and Godin DV: Effects of phytic acid on the myoglobin-t-butylhydroperoxide-catalysed oxidation of uric acid and peroxidation of erythrocyte membrane lipids 23
- Kupferberg A, Cremel G, Behr P, Van Dorsselaer A, Luu B and Mersel M: Differential sensitivity of

- astrocyte primary cultures and derived spontaneous transformed cell lines to 7 $\beta$ -hydroxycholesterol: effect on plasma membrane lipid composition and fluidity, and on cell surface protein expression 11
- Llobell A *see* Peinado J *et al.*  
 López-Barea J *see* Peinado J *et al.*  
 Luu B, *see* Kupferberg A *et al.*
- Malaisse WJ, *see* Perales M-A *et al.*  
 Martínez-Galisteo E *see* Peinado J *et al.*  
 Meléndez-Hevia E, *see* Cascante M *et al.*  
 Meléndez-Hevia E, *see* Torres NV  
 Mendicino J, *see* Sangadala S *et al.*  
 Mersel M, *see* Kupferberg A *et al.*  
 Miller TB, Jr, *see* Jaspers SR  
 Mukherjee S, *see* Ghosh S *et al.*
- Nijjar MS and Hatch GM: Effects of premature weaning and diet on lung growth and appearance of adenylate cyclase activator in rat lung 59
- Olivares C and Ruiz S: Nucleosomal organization of chromatin in sperm nuclei of the bivalve mollusc *Aulacomya ater* 93  
 Oten PW, *see* Ghosh S *et al.*
- Pato MD and Kerc E: Regulation of smooth muscle phosphatase-II by divalent cations 31  
 Peinado J, Florindo J, García-Alfonso C, Martínez-Galisteo E, Llobell A and López-Barea J: Metals are directly involved in the redox interconversion of *Saccharomyces cerevisiae* glutathione reductase 175  
 Perales M-A, Sener A and Malaisse WJ: Hexose metabolism in pancreatic islets: The glucose-6-phosphate riddle 67  
 Puschendorf B *see* Knosp O *et al.*
- Raghow R, *see* Katai H *et al.*  
 Razin SV, *see* Bronstein IB *et al.*  
 Ruiz SV, *see* Olivares C
- Sangadala S, Sivakami S and Mendicino J: UDP-GlcNAc: Gal $\beta$ 3GalNAc-Mucin: (GlcNAc $\rightarrow$  GalNAc)  $\beta$ 6-N-Acetylglucosaminyltransferase and UDP-GlcNAc: Gal $\beta$ 3(GlcNAc $\beta$ 6) GalNAc-Mucin (GlcNAc $\rightarrow$  Gal) $\beta$ 3-N-Acetylglucosaminyltransferase from Swine Trachea Epithelium 125  
 Sener A, *see* Perales M-A *et al.*  
 Sheehy PA, *see* Horn VJ *et al.*  
 Sivakami S, *see* Sangadala S *et al.*
- Talasz H, *see* Knosp O *et al.*  
 Terato K, *see* Katai H *et al.*  
 Torres NV and Meléndez-Hevia E: Detailed protocol and critical view for the analysis of control in metabolic systems by shortening and enzyme titration 1  
 Torres NV, *see* Cascante M *et al.*
- Van Dorsselaer A, *see* Kupferberg A *et al.*
- Wolf G, *see* Kirven MJ
